CRYPTO ASSET MANAGEMENT

The wild volatility in prices of crypto-coins and tokens is a risky universe. But the possibility of meteoric returns goes in hand if decisions are made smartly and with accuracy. Retail Investors are the ones who most of the time find themselves stuck in death trap and lose their money.

Traditional assets are loosing their shine due to frauds, distrust and manipulation. The need for crypto-asset management is raising due to its growing network and trust of public at large in blockchain technology

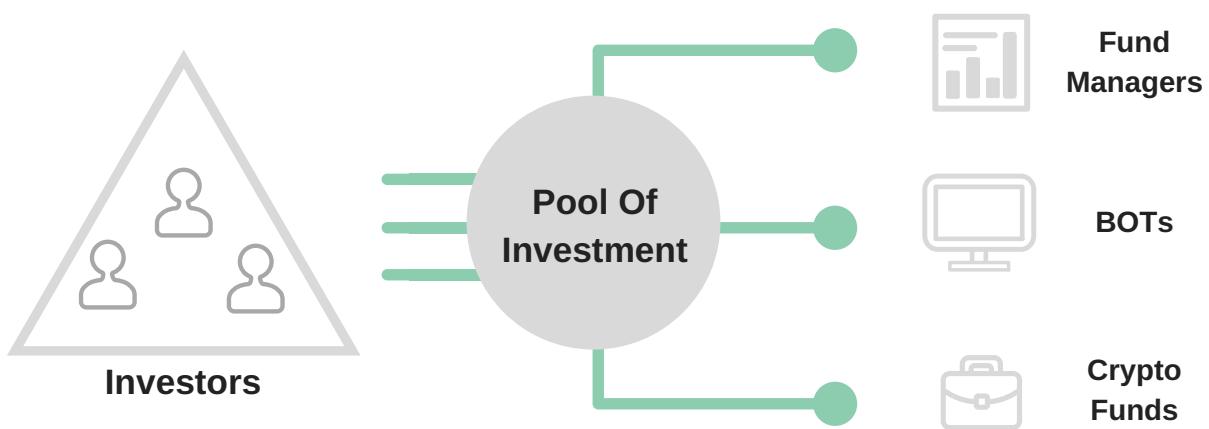

Our Fund offers Intelligent Crypto-Asset Management in a way more than just one. Our fund works on three fundamental pillars of Investment trust: Transparency, Security and Wealth creation.

We achieve high quality investment under supervision of Industry experts and experienced fund managers. The benefits of collective investment also helps us to achieve revenue at low cost.

INVESTORS

The objective of the fund is to maximize the wealth of investors through efficient crypto asset management by experienced fund managers, Intelligent BOTs and diversified crypto funds. Together they negate the systematic risk associated with crypto assets.

Experienced fund managers ensures the exponential returns the crypto-market has to offer. Their prior presence in crypto market and their ability to understand the same gives them an edge in the league. We have a strict process to appoint fund managers backed by Investors' consensus.

We offer Intelligent BOTs commonly referred as Algos who trade using complex learning with highest accuracy. BOTs can also negate the human bios with least deficiency.

As the saying goes ' don't put all the eggs in one basket'. The Fund will also be invested in good performing diversified funds which offers sturdy returns.

PRICE ECONOMICS OF THE TOKEN

On ICO

Issue Price 1 Token = \$25

Application for the subscription will open
